[New Maximum and Minimum Compensation Rates](#)

As every year effective 1 September a new maximum and minimum compensation rate went into effect for accidents occurring between 1 September, 2009 and 31 August, 2010. Do remember that for accidents before 1 September, 2009, the maximum and minimum remain unchanged from the rate in effect on the date of accident.

The new maximum will be \$577.00 and the new minimum will be \$154.00.

In the past several years the OWC has also modified the mileage rate effective from the 1st of July. However this year the mileage rate will remain at \$0.52 per mile.
