NLRB Makes New Employee Rights Poster Available For Download

As indicated in an earlier labor e-alert the NLRB recently issued a final rule which would require all private sector employers covered by the National Labor Relations Act to post an employee rights poster in places where other employee notices are posted. The NLRB made the actual poster available for download this week. Employers who want to preview the poster that will have to be posted on November 14, 2011, absent court or Congressional action that would stop or delay the new rule, can now download the poster by going to www.nlr.gov/poster. An additional recent development on this issue was a suit filed in the District of Columbia federal court by the National Association of Manufacturers against the NLRB on Monday, September 12, 2011.
